

2016... APRIL

**First Open Day
of the Year!**

MAY

**Our Maxi & Mini
Railway Day**

JUNE

**Fingers crossed it's a
sunny June Open Day**

JULY

**For more info'
see our website**

AUGUST

**Full details available at
electricrailwaymuseum.co.uk**

SEPTEMBER

**HERITAGE
Open Weekend**

OCTOBER

**Last Chance to
Visit for 2016**

**Find us on Rowley Road, just two miles
from Coventry City Centre and close to
the village of Baginton.**

BY ROAD We are easily reached from the M1 (M45), M6
and the M69. Follow the signs for Coventry, then follow the
brown tourist road signs for Coventry Air Museum as we are
located right next door. For SatNav our postcode is CV3 4LE.

BY RAIL Coventry Station is served by Virgin Trains,
London Midland and Cross Country – and a short bus ride.

BY BUS Catch the #539 bus from Coventry Station on
Warwick Road (over the bridge at the western end of the station
and on the same side of the road as the station). The #539 to
Kenilworth runs every two hours on Saturdays (not Sundays)
passing within walking distance of the museum. Alight at
Baginton Post Office for a 15 minute walk up Rowley Road.

BY TAXI From the taxi rank at Coventry Station's forecourt
to the museum costs in the region of £8-10 each way.

**FREE
ENTRY**

Filling a need in Britain's Railway Heritage

Make tracks for the **Electric Railway Museum** for a fun and free trip out for **all** the family

Come and discover the UK's premier railway museum dedicated to electric trains.

See the UK's largest private collection of electric trains that represents over a century of technological progress and includes examples of commuter trains, battery-electric locomotives, underground carriages, high speed express units with over 40 exhibits covering trains, track, signals and electricity.

Climb aboard trains of the past while learning about their place in our railways' history.

Join our very knowledgeable guides for a detailed tour and see our restoration projects in action.

Throughout the day, watch our shunting demonstrations and buy a ticket to ride our 7¼ inch Miniature Railway.

When you've reached your stop, pop-in to the Clacton Café, our converted 1960's Clacton Express train for hot and cold drinks and snacks.

There's also a Souvenir/Gift Shop to buy a memento of your visit plus a selection of train related toys and activities for the kids.

Bring a picnic if the weather is good!

FREE ENTRY and FREE Car & Coach Parking OPEN from 10.30am-4.30pm

See overleaf for dates of our Open Days this year and start planning your visit today!

About Electric Railway Museum

Formed in 2007, the Electric Railway Museum Limited is a UK based charitable company who aim to promote the heritage of all electric trains in the UK through traction and rolling stock restoration, display and operation along with work in gathering historically relevant technical and photographic archives. Our work is entirely run by volunteers and funded by donations.

Support us All of our projects are entirely staffed and funded by volunteers so we need the support of people like you to ensure we succeed in achieving our aims. Please consider making a donation or perhaps taking out a standing order and becoming a member of our Supporters Association.

Become a Volunteer! We're always looking for more volunteers of all ages and abilities both on- and off-site for technical and non-technical tasks so we're sure you have something to offer us, so please do get in touch. Our need for more volunteer workers is to assist in a number of areas of our work including:

- > Railway Vehicle Restoration
- > Gardening & Landscaping
- > Traction Restoration & Maintenance
- > Permanent Way Work
- > Railway Operations

OUR AIMS The Electric Railway Museum was formed by members of various electric traction preservation projects in a 'coming together' of both minds and resources for the common promotion of the cause within the UK railway heritage movement because it was commonly felt that representation of electric traction preservation was severely under achieving and needed:

- > A permanent home that forms the centre of the operation and the display of principal artefacts
- > A cohesive collections policy to focus on what was going to represent development of the form for future generations

Our Aims are two-fold

- > To advance the education of the public in the history, science and engineering of electricity and its application in railway transport
- > To preserve, restore and operate for the benefit of the public items of historical, engineering, scientific, socio-economic or architectural value relating to the subject of electric railways
